

PE and Sport Premium 2025 to 2026

Every year, the government gives primary schools extra funding to improve PE, physical activity and sport. Here is how we spent ours to help every child be active, healthy and confident.

£20,120

PE and sport premium received for 2025 to 2026

100%

of the funding spent this year, with nothing left unspent

How we spent the money

Most of our funding went on high-quality equipment and resources, so that every PE lesson, club and playtime is well equipped. We also invested in after-school clubs, sports competitions and staff training.

Total spent: £20,120. Percentages are rounded to the nearest whole number.

The difference it has made

65% → 96%

of children say they enjoy break and lunchtimes, up from 65% at the start of the project

99.6%

of our children now choose to spend their break and lunchtimes outdoors, engaging in meaningful physical activity

Our investment in high-quality outdoor equipment and activities at break and lunchtime means that **every child now feels able to play outside** with their friends.

For children who have little access to outdoor space outside school, this means **quality outdoor play and games every day**.

Sport for everyone

We targeted some of our spending to make sure every child can enjoy PE and sport. This year we focused on:

- ✓ better opportunities in PE and sport for **pupils with SEND**
- ✓ more access to PE and after-school sport for **girls**, including a **free netball club open to boys and girls**, so that girls' sports are valued as highly as sports like football
- ✓ more opportunities in sport and physical activity for **disadvantaged pupils**, including daily outdoor play and games

Swimming and water safety

Our Year 6 pupils in 2025 to 2026:

We did not use the PE and sport premium for extra top-up swimming lessons this year.

Looking ahead to 2026 to 2027

Next year, we will work with the new PE and School Sport Partnerships Network to build on this work, focusing on three areas: **training for our staff**, **more after-school clubs and activities**, and **more chances to take part in school sports competitions**.
